“An Awareness Program against Superstition”

Report

Introduction

At the beginning of the 21st century and the new millennium, everyone is aware of the need to be able to think with an open mind and to lead a rational life. Maharashtra has a long legacy of rationalist social reformers who always took an objective and informed stand against superstition. The constitution of India has stipulated adoption of scientific outlook as one of the responsibilities of every Indian and has included it as a value to be inculcated through education

Awareness Program Objectives

- 1.To explain the importance of Science and its contribution to Social development.
- 2.To develop critical thinking in students
- 3.. Eradication of superstitions.
- 4.To spread and develop scientific nature among the students
- 5.To aware the student about the constitutional and humanistic principles towards life.
- 6.To initiate scientific, social and constitutional wisdom and responsibility towards society.
