Health Care Center

Health is Wealth

The institute runs various activities for the overall development of girls. To take the care of students' health, college has established the health center and availed facility for them. Being the wards of farmers and laborer's family and from economically weaker section, many students have some health problems like anemia, nutritional deficiencies, etc. These issues are considered while establishing the health center. In 2019-20 the institute has started B.Voc in nursing degree course and attached the Health center with Nursing Department. Faculty members are also benefitted with it as the faculty members and students of nursing center are trained in many formal medical health check-up procedures such as: Blood Pressure, Sugar, HB, Blood group checking etc. A visiting doctor is also appointed on call service to provide the emergency medical help to the student whenever necessary. Moreover the institute has signed a MoU's with various hospitals, which help in serious health issues if arises any.

Aims/Objectives:

- To provide medical service on call to the needy students.
- To bring forth an attitude in students regarding healthy body & healthy mind.
- To create awareness of healthy living and its significance among the students.
- To make the students aware of women health issues and precautions to avoid them.

Health Centre provides following's services:

- Health check- up camp
- Health Care tips through guest lectures
- Health education workshops/lectures
- Organizing various lectures regarding diet and yoga.
- Consultation and advice regarding the disease or health related problems
- First Aid boxes and medical kits are available for emergency medical services in Nursing Department.
